BLACK ROCK

RE: Site Inspection, Mert Hamilton, Rich Gulch Project, S/027/088, Millard County, Utah

Date of Inspection: June 19, 2001
Time of Inspection: 3:00 – 3:30 p.m.
Conditions: Quite hot
Participants: Tom Munson, DOGM

Purpose of Inspection: To inspect the site while in the area

I stopped at this limestone operation located north of Milford. I walked around the site, but I did not GPS the site because the BLM has already recently GPS'd the site at a little over three acres.

Photos were taken of the site. There are two crushers, a couple of conveyors and a hopper at the site. They are blasting black limestone to reduce it down to about a 10 mesh size so they can sell it to the asphalt industry and possibly for cement products too. They expect to be up and running in a week to ten days. Mark Layton will be in charge of the project. He thought they should be a little further along than they were, but they are moving ahead.
